Professional Summary

Mobile Engineer experienced in developing and maintaining production mobile applications using React Native, React, TypeScript, JavaScript, Python, and REST APIs. Skilled in mobile application development, application debugging, backend integration, and publishing Android applications on Google Play. Background in software development, problem solving, and collaboration with cross-functional teams in production environments.

Skills

Core Technologies
React Native, React, TypeScript, JavaScript, Python, Expo

Data & Persistence
SQL, SQLite, Firebase

Backend & Integration
REST APIs, Node.js, JSON, System Integration

Tools
Git, GitHub, Insomnia, Power BI

Professional Experience

Software Developer, *R L R C TEKNOLOGI LTDA* Aug/2022 – May/2026
Natal, RN, Brazil

- Developed and maintained production mobile applications using React Native and TypeScript.
- Implemented REST APIs for communication between mobile applications and back end services.
- Built authentication flows and data synchronization features for production applications.
- Created Python scripts for automating internal processes to improve operational efficiency.
- Contributed to the maintenance and enhancement of React and TypeScript applications, implementing new features, UI improvements, and bug fixes.
- Analyzed and fixed problems in web and mobile applications, enhancing system stability and user experience.
- Developed and customized WordPress Landing Pages, including installation, configuration, and content and interface customization.
- Helped maintain and continually improve internal business systems and operational tools.
- Partnered with developers, stakeholders and cross-functional teams to deliver features and solve technical challenges.

Projects

BateCarga Calculator, *Personal Mobile Application* Apr/2026 – Present

- Developing a mobile application for operational calculations using React Native, TypeScript, and Expo.
- Implementing business rules, calculation logic, and user interface components.
- Developing and deploying application workflows with a focus on usability and efficiency.
- Preparing the application for publication on Google Play.

Toca do Frango, *Personal Mobile Application (Google Play Store)* Nov/2025 – Apr/2026

Google Play: https://play.google.com/store/apps/details?id=com.arthurfrc.tocadofrango

- Developed and published an Android application using React Native, TypeScript, and Expo.
- Implemented application navigation, data persistence and core business logic.
- Managed entire product life cycle from development, testing to deployment and maintenance.
- Published and maintained an Android application on the Google Play Store.

Education

Bachelor's Degree in Computer Engineering Federal University of Rio Grande do Norte, *UFRN* 2021 – 2025, Natal, RN, Brazil

Bachelor's Degree in Science and Technology Federal University of Rio Grande do Norte, *UFRN* 2013 – 2019, Natal, RN, Brazil

Technical Diploma in Information Technology Federal Institute of Rio Grande do Norte, *IFRN* 2009 – 2012, Natal, RN, Brazil

Academic Experience

Teaching Assistant – Logic and Programming Languages, *UFRN* Natal, RN, Brazil

- Academic support to roughly 200 students in Logic and Programming courses.
- Helped students with programming exercises and technical questions individually and in groups.
- Assisted students in understanding programming fundamentals, algorithms, and computational logic.
- Assisted in monitoring student progress and trends in learning difficulties.
